# **IAHR-HK Prize in Water Engineering**

## **Terms of Reference**

The International Association for Hydro-Environment Engineering and Research – Hong Kong Chapter (IAHR-HK) has set up a prize for undergraduate students majoring in civil engineering or related disciplines at a local university. The Prize shall be awarded under the following regulations:

1. The Prize shall be known as ‘IAHR-HK Prize in Water Engineering’.
2. The Prize shall be awarded to an undergraduate student (with priority given to Year 2 or Year 3 students) who has achieved the best overall results in an undergraduate core course on hydraulics, hydrology or water resources. Only students who are non-exchange students and take the course in their first attempt will be considered for the Prize.
3. The Prize includes a cash value of HK1,000, a certificate, and an entitlement to one-year free student membership of IAHR-HK.
4. In one year, no more than 3 prizes shall be awarded, and the prizes can only be made to students from different universities.
5. In any year when candidates are judged of insufficient merit, no awards shall be made.
6. IAHR-HK shall have the sole right to decide the awards of the Prize.
7. To meet future circumstances, the regulations of the Prize may be subjected to review by IAHR-HK at any point in time.
