For enquiries, please contact Ms. Winnie Leung by email : [winnieleung@epd.gov.hk](mailto:winnieleung@epd.gov.hk)

#### Our Invited Guest Speakers

Dr. Ji Chen , from the Department of Civil Engineering of The University of Hong Kong will share his study of an Environment and Conservation Fund (ECF) supported project about Lai Chi Wo. Dr. Chen is leading the project about flood risks and water resource issues for agriculture irrigation, the impact of suspended sediment, turbidity and streamflow conditions on river biodiversity.

Ms. Katie Chick is now working in Policy for Sustainability Lab under the Faculty of Social Sciences of HKU and is the Project Manager of the Lai Chi Wo revitalization programme. Katie is 2011 Architectural Conservation Programme (HKU) graduate. Before that, she finished her M.Phil. study in ecology in Hong Kong. Her interest and expertise covers both heritage and nature conservation. She has very rich experience in managing local cultural landscapes. She previously worked for The Conservancy Association as conservation manager to operate the project "Nature Conservation Management for Long Valley", a government-granted conservation project for farming wetland landscape. The project has successfully engaged local indigenous and farming communities in conserving our natural and cultural farming heritage. Katie is part-time cultural landscape teacher of ACP and Postgraduate Diploma in Cultural Heritage Management of HKU SPACE. She is also the founding member of Association for Conservation of Hong Kong Indigenous Languages.

1600 – 1730	Return to Ma Liu Shui Pier	
1730	Dismiss at Ma Liu Shui	

## Programme Details:

### Guided Geo-tour of Northeast New Territories

The boat tour will go around the inner sea area of the northeast New Territories: Tolo Channel, Bluff Head (Wong Chuk Kok Tsui) and Double Haven (Yan Chau Tong), which are parts of the National Geopark of Hong Kong, China. Most of the rocks along the north shore of Tolo Channel and at Bluff Head are the oldest in Hong Kong formed about 400 million years ago. Double Haven has been designated a marine park in 1996 due to its wildlife and natural features. The boat tour will take about 1.5 hours, during the boat tour, a qualified geo-guide will lead the guests to appreciate the coastal landforms and observe the geology and rocks along the coastline.

### Guided Tour at Lai Chi Wo

Lai Chi Wo is part of the National Geopark of Hong Kong, China due to its special geological significance and natural and cultural landscape. The Lai Chi Wo Village is a traditional Hakka village which was established as early as 1670s and had a long history of farming. Along the coast has the largest population of Coastal Heritiera (*Heritiera littoralis*) and White-flowered Derris (*Derris alborubra*) in Hong Kong. Because of its unique natural and cultural features, Lai Chi Wo has been designed as a Site of Special Interest (SSSI) since 1979. Since 2013, a Community Revitalization Programme has been carried out in collaboration with The

University of Hong Kong, the local villagers and other NGOs. The tour will also lead the guests to visit the paddy fields to understand the objectives of the programme.

### What to Bring?

- To protect yourself from sun burn: **hat, sunscreen**
- In case it rains/ gets windy: **wind breaker, rain coat, umbrella**
- There are mosquitoes in the countryside. Be prepared: **long sleeves shirt and trousers** (chemical insect repellent is not encouraged in organic farm)
- Drinking water – Please bring along **your own bottle with potable water**
- Farmland work are tough under the sun: please wear your own hat, and extra set of clothing for changing are suggested
- **Comfortable walking shoes.** Old shoes and clothing should be adequate
- There is a public toilet in the village and one on the boat

Assembly point

Ma Liu Shui Ferry Pier No. 3 (馬料水3號梯台) (about 15 min walk from MTR University Station)
